NEWS FROM EUROPE.

The Coronation the Absorbing Topic of Europe-The Vatican and the Irish-Fighting in South Africa. Russia.

LONDON, May 22.- A dispatch to-day from Berlin says: A report, which is not yet confirmed, comes from St. Petersburg that previous to the departure of the Emperor for Moscow an explosion occurred under the washstand and in the fireplace iu his dressing-room, but nobody was injured, the Emperor and Empress being in the dining-room at the time.

The foreign delegations have already begun to arrive, and the city is filling rapidly with visitors. England.

London, May 22.—The Government Is anxious to have it understood that no arrangement of any kind was made with the prisoners who have pleaded guilty, or who have acted as informers.

Ireland.

Dublin, May 22 .- Mr. Sexton, speaking at a meeting to-day ln favor of the l'aruelt fund, urged the avoidance of the use of language by representatives of the Irish party which would prevent or be likely to postpone un honorable reconciliation of the Irish people with the Vatican. The propaganda at Rome has sent a confidental circular to the Irish clergy in answer to their request for advice confirming the Pope's letter, indorsing its ideas and counseling implicit obedience.

DUBLIN, May 22-The rotunda ward meeting last night was a rousing one. Every mention of the name of Parnell and Bishop Croke was greeted with loud applause. The tone of the meeting was respectful toward the spiritual authority of the church, but deeply resenting the interference of any foreigner in the religious, civil or political affairs of Ireland.

The sum of £100 was collected on the platform. The Mayor was requested to call a meeting of the corporation to protest ngainst the circular from the Vatican. The feeling over the Pope's mandati is daily becoming more intense.

France.

Paris, May 22 .- Cardinal Lavigere, Archbishop of Algiers, has been authorized by the Pope to call the attention of the French Government to the difficulty the Pope has in preventing a tension between the Vatican and France from becoming an open rupture, and to show it how impatiently the enemies of the Republic await such a result. The Government made an amicable reply to the Curdinal's communication.

The Anarchist, Morphy, having returned here after being expelled, was rearrested. He had intended to found an Anarchist journal.

Italy.

Rome, May 22,-it is new understood that the vote of confidence in the policy of the Cabiuot was not satisfactory to M. DePretis, and he tendered King Humbert the resignation of the whole Cablnet. This the King refused, but only dropped the names of M. J. Zanarddli, Minister of Justice, Arts and Ecclesiastics, and M. A. Baccarine, Mialster of Public Works.

The Finest Fighters in the World,

Kansas City, May 22.—A correspondent writing to the Journal, says the reason for the non-suppression of the Apaches is not the interference of the Interior Department, but simply and solely fear. He says the American Arabs are the finest fighters'the world ever saw. They campaign in a badly broken-up country which is inaccessible to ordinary troops. The correspondent gives some particulars showing how the Apaches amuse themselves. A band of fifty were being pursued by five Times their number of Mexican troops, the Apaches made a fight, and, retreating, again divided into five bands. The pursucrs did the same. In the course of a few hours the Apaches all met on the edge of a precipiee and annihilated each bund of pursuers as it arrived. A Mexican General who has fought Indians for many years says 500 Apaches cun hold their country against 5,000 troops, and have a good time in the bargain. They are wellmounted, active, dead shots, as brave as tigers, and, in the opinion of the correspondent, are able to hold their own against any comers by simple superiority

NEWS EROM CROOK.

He Is on Mexican Territory Against Mexican Remonstrance-A Fruitless Campaign Expected.

SAN FILANCISCO, CAL., May 22 .- A Tombstone special, to the Evening Chronicle, says: "The following information is direct from headquarters of the army for operations against the Indians, dated Aposura, Sonora, May 18. Tuesday evening last, a courier arrived from Bavispe, with a communication from Lieutenant Parras, stating that General Crook reached there on the 5th with 200 Apache scouts, 100 American cavalry and a body of Mexican troops. Crook obtained guides from the military commander of the town to conduct his force to where Gareia had his late fight. The next day he departed for the Sierra Madres via Guacheria. The com-.nand is accompanied by forty pack mules, laden with provisions sufficient to last a long period. The main body of Crook's force, now numbering five hundred, camped at Alamehuece, twenty leagues from Janos. Had Lieutenant Parris consulted with Heady before giving Crook guides, none would have been furnished, on the ground that Crook's entry was in violation of the treaty. Crook made all his preparatious deliberately and has the sympathy of the Mexican population.

By a return courier Colonel Bandata, the new commanding officer, wrote General Crook, remonstrating in courteous but decided language that his action was an infraction of the treaty. Neither Bandata or Garcia, who was lately in command, have received instructions as to what General Crook, by the consent of their Government. would be permitted to do. Bandata says he will oblige all the American military

force to adhere to the articles of the treaty. When Bandata received the news of Crook's arrival at Bavispe, he took immediate guard against the Indians making another raid, If driven out of the mountains by General Crook. Many familiar with the Apaches state that General Crook will not be able to find the Indians if they learn of his approach. They will scatter into small bands and hide in impenetrable fastnesses. Others as confidently state that Crook will not be able to bring them to a fight, because the Indians have exhausted nearly all ther ammunition in the Gareia

THE KNIGHTS OF PYTHIAS, BARNUM'S SERIOUS LOSS

Jumbo's Hasty Retreat From Porkopolis.

A Disappointed Crowd-Rain, Mud ami Profanity-Barunm's Loss \$40,000.

CINCINNATI, O., May 22.—The Barnum Circus seems this year to have been singled ont as a victim to the weather's vengeance. At Wheeling, W. Va., a week ago, a severe wind-storm prostrated the tents and obliged a discontinuance of the perform. ance, and in this city even a much more serions calamity has overtaken the great show. The stroke of business which succeeded in depriving even Cincinnati's home institution, the Robinson show, from exhibiting in its native city by leasing for the entire season the only available grounds in the city, which was done early in the season by Barnum's agent, at a large expense, only seems to make the present less the more severe.

The show was to open its cantass doors on Monday afternoon. Beginning Saturday night a heavy rain-storm set in, which has continued almost incessantly ever since. The great tents were erected, however, in spite of the storm, and every effort has been made to get the grounds in shape to enable the performance to be given. An idea of the condition of the grounds can not be given in cold iuk. The mud and slush covered not only the grounds proper but every avenue of entrance to the depth of six inches. The heavy wagons stood nearly hub deep in the mire, and the great Jumbo's height was reduced at least a foot by his sinking in the mud at every step. The brute's intelligence was manifested by his attempts to find hard ground upon which to stand, but finally he seemed to give up the attempt, and settled into mud and despondency. Tansfer wagons were hired by the score to hand saw-dust, gravel and cluders to cover the mud, and several thousands of dollars were expended for this object. The elephants were made to help in this effort, and when a load of gravel would sink hub deep into the soft earth a pair of elephants would place their heads against the tail-boards and push the load out of the net without ceremony. But this work finally had to be abandoned, as it was impossible to seeure enough dry material to cover a fraction of the grounds. and this morning the announcement was mude that no exhibitions would be attempted.

The tents are down and are being packed away; Jumbo has pulled himself out of the mud, the disgusted showmen are breathing profanity at every breath, and the managers are figuring the losses. The city is tilled with an Immense crowd of people, and much disappointment prevails. The loss-expenses and money which would have been taken had the performances been given-is at least \$40,000.

UNHEALTHY PARIS.

The Bad Sanitary Condition of the Center of Fashion.

Paais, May 22 .- It will surprise people In America to learn that In one important respect the municipal government of l'aris has long been hamentably inefficient. The sewers of the French capital have been famous from time immemorial, and yet now, it seems, they are denounced by sauitary authorities as atterly unsuited for the work to be performed. The streets of Paris may be beautifully clean, but disregard of precantions to preserve the public health has kept the death rate of the city much above that of London, for instance, and has given free play to the diseases which are preventable by proper hygienic arrange-

ments. Paris has recently suffered from a severe epidemic of typhoid fever, and zymotic diseases generally have for several years prevailed there to a marked extent. From 1869 to 1874 the proportion per 100,000 inhabitants who died from typhoid fever, diphtheria, small-pox, measels, and scarlet fever was 150, a high rate. And this figure has steadily increased since. During the years from 1879 to 1881 it was more than doubled, the proportion being 334. Last year over 3,000 persons died from typhold fever, and In 1880 and 1881 there were more than 2,000 deaths each year from the same

disease. The great cause of the trouble is the sewerage. The system of drainage is described as barbarle, and, in spite of the spread of knowledge in that direction within recent years, there is the grossest ignorance as to traps, ventilating and other methods of preventing the escape of foul

It seems that though the Paris sewers are vast in size, they have not a sufficient fall; that the water supply is inadequate; and that the solid deposits are so numerous that a force of eight hundred men has to be employed to push the matter along. And yet those sewers receive only a part of the drainage of the houses. There are in Paris 80,000 eesspools, of which only 60,-000 are emptied in the course of the year.

In fine, the drainage system of Paris is far behind the age, and a disgrace to a capital which aspires to lead the world in civilization. Nor have the citizens yet learned how to protect their houses from the

ingress of sewer gas, though here in New York the question has become one of the most important with every householder, so that oftentimes people are almost monomanlacs on the subject, and many inventions to accomplish the desired end are made every year.

The evils caused by its bad drainage are so perious that at last a special Technical Commission has been appointed to report on possible sanitary improvements for Paris. This Commission has among its members the engineer-in-chlof of the Paris sewers, eminent physicians most versed in sanitary matters, and celebrated chemists. On tho 2d of this month they visited London to inspect the metropolitan sewers and get hints as to a drainage system to be recommended for the French capital.

But the measures they must advise will involve a great outlay, which will provoke much discussion, and probably excite no little opposition. Yet Paris can not afford to have a reputation for unhealthfulness,

and that it is now getting.

FIGHTING OUTLAWS,

To Capture a Young Train Wrecker. READING, May 22 .- Early Sunday morning special officers Herslen and Boone, of the Philadelphia & Reading railroad, brought to this city a boy whom they had captured on Stone Hill, Laucaster county. after a battle with outlaws, on the charge of placing the heavy plank on the track of the Reading & Columbia railroad on Wednesday, which wrecked a freight engine and some twenty cars, and caused the death of Georgo M. Hain, Master Mechanic of the road. Stone Hill is a branch of the Welch Mountains, which have long been known as the rendezvous of the notorious Buzzard brothers and other fugitives from justice. The policemen having obtained trustworthy Information as to the person who committed the crime, proceeded into the mountain fastness, well armed. The object of their search was a boy named Jacob Ganaway, aged fourteen, though large for his age. They were intercepted at the foot of the mountain by several hard-look-ing men, who demanded their business and said that the best thing they could do would be to leave at once. They kept on advancing, however, and were met with a shower of stones, and several savage dogs were set upon them. The ontlaws then retreated with the policemen closely following them. Further up the kill they came upon the cabin where the boy has kept. He was hurried off by some of the ourlaws, while the remainder tried to intercept the policemen. By a flank movement, however, they came upon the boy and the men who had him in charge, and by presenting pistols forced the outlaws to hand the boy over to them.

The youth was brought to this city, and in the morning will be taken to Lancaster. It is said that he was seen on the bridge overlooking the scene of the accident when the engine plunged off the track. He then ran off as fast as, his legs could carry him, but was met by a farmer half a mile away, to whom he told a very crooked story. Mr. Hain, the victim of the wreck, was pinned to the earth by the engine and slowly roasted to death. He was buried here yesterday.

TRADE AND TRADERS.

Wall Street's Daily Fight-The Bears Secure a Victory—All the Capital Secured for the Northern Paciste— General Market Reports.

NEW YORK, May 22.—The disconraging financial situation in London and the ale sence of support to some stocks were among the causes of depression here yesterday. The total sales were nearly 400,-000. The fenture of the day was the general selling, which embraced nearly every stock on the list. While there was much disposed of for short account, it was apparent also that there was cousiderable liquidation by investors. Bears were hammering Canada Southern, which led the Vanderbilts in the downward movement. Michigan Central met with about the same treatment and broke with Canada Southern. New York Central was inclined to be steady, but on heavy selling by some parties it succutabed to the general weakness. Considerable trading in Lake Shore. Gould sustained his Southwesterns, including Wabash. Consols were only one-eighth lower in London yesterday, which does not indicate any musual disturbance there.

President Villard says the capital necessary to finish the Northern Pacific to the connection with the Central Pacific has been assured. President Stanford, of the Central Pacific, says: "We sell our stock occasionally, but never otherwise than in large blocks. We sell only when we want money for building purposes. We have not sold any since June last. I don't know of any railroad which stands upon a sounder financial basis or has bright pros-

peets." A firm dealing in Mexican and English sccurities has failed, but the largest estimate of its liabilities was £100,000. This failure has connection with American interest and was probably the result of the recent fall in Mexicans, which previously advanced on reports of settlement with the Mexican Government, which reports turned out untrue. The decline in American securities was simply such as would naturally follow the depression which existed in

the market last Saturday. The crops in Nebraska are reported in an excellent condition. The increased acreage of corn is immense.

ANOTHER LOVER'S EXIT.

A Girl Makes an End of Her Disappoint Went With Landanum.

CRETENNE, W. T., May 22 .- In February last a girl arrived in Cheyeane from Denver and located herself in a house on the corner of Nineteenth and Thomas streets. She gave her name as Lillie Thorpe, but she soon assumed that of Lillie Talbot. She had formed the acquaintance of a young man-a "news agent" on tho Union Pacific-which acquaintance soon developed into an ardent attachment. A few days ago the house in question was abandoned by its inmates only to take up quarters in a more spacious building erected for the purpose on West Eighteeuth

Yesterday afternoon, about 4 o'clock, the lovers had an interview, which resulted unpleasantly, us he left tho house in auger. The girl, after giving way to extravagant grief for some time, at last left the house, declaring she would find him. She came back in an hour and went direct to her room, which was shared at the time by a female companion. After some conversation, during which the girl said that if her lover did not return she would "never enter the parlor again," her companion went to lunch. She was absent about twenty minutes, and when she returned she observed something in the girl's troubled face that awakened suspicion. She said, "Lillie, yon've been taking something," and iminclintely started for the door to call assistance. But the desperate girl caught her around the waist and cried, "You shall not go; let me die; don't send for anybody." The struggle continued for several minutes, until the girl, under the influence of the deadly drug she had swallowed, relaxed her hold, and her companion escaped. Assistance was summoned and soon Drs. Barkwell and Wyman were upon the spot. The girl lay in a lethargic stupor, occasionally moaning, while upon the bureau stood a twoounce bottle labeled landanum, which told the tale. Her lover was telephoned for and arrived in a few minutes, only to find his protestations of sorrow and endcarment unavailing to bring her back to life. The physiclans did all in their power to counteract the effects of the drug, but she died.

The poor unfortunate has quite a history, having for several years traveled over Europe in the company of an Englishman of high rank. Coming to this country, she drifted west and finally to this place, where she has met her sad fate.

Her mother. Mrs. Kate Sanders, who lives at Wonona, Wis., has been tele-

A SAD MARRIAGE.

Twain Made One and Then a Long Farewell.

CLEVELAND, May 22 .- For years Miss Annie Renachere has been one of the leading belles of Cleveland. Mr. Charles W. Seymour is a well-known society man and son of wealthy parents. Miss Renachere and Mr. Seymour became engaged about a year ugo, and it was expected that they would be married this spring. About six months ago, however, Miss Renachere was stricken down with a complication of diseases, which proved to be beyond the reach of the best medical skill. During the past few weeks, it has been merely a question of time when her death would occur. As the time which had been fixed for the marriage approached she grew weaker and weaker, but it was determined that nothing should be allowe I to interfere with the performance of the marriage ceremony. Thursday was the day fixed for the wedding, and the bride, pale and wan from her long sickness, was propped up with pillows on her beath-bed while the marriage ceremony was performed. Only a few of the nearest and dearest friends of the contracting parties were present. The bride answered the questions of the clergyman in faint whispers. Tears stood in the eyes of all present, and the groom was completely heart-broken. Sunday afternoon at 21 o'clock all that was mortal of the bride was borne from the residence of hor parents, No. 10 Bridge street. She was twenty-four years of age.

A New Menagerie Attraction. NEW YORK, May 22.—Five sea cleghants have arrived at Jersey City from San Francisco, over the Erie rallway, and fare waltzing around the stable of Mr. Henry Reiche, their owner, at Hudson and Tenth streets, Hoboken. They were shipped from San Francisco by express, and stood the journey remarkably well. Each was in a crate by himself, and none of them was fed or watered on the road. When turned out of their cages in Mr. Reiche's stable they first hitched their way to a hose through which water was flowing, and then, after affectionately rubbing noses, they went up an incline and tumbled into a large tank, from which half a dozen sea lions had been evicted to give the newcomers a bath. They subsequently came out of the tank and ate nearly a barrel of fresh fish. Two or three of them strolled out into the vard and lav around on the gravel. A dog in the yard went into his kennel and looked as if he would faint from sheer fright. The largest of the elephants is a male about ten feet long. The smallest is four or five feet long. They are about nine months old, and were eaught on the Pacific Coast last fall, and have been on exhibition in San Francisco

several weeks.

To correct any false impressions that may have been produced by the treacherous Democratic papers in and out of the State and their penny whistle satellites, as to the regularity of the nomination for Governor of Hon. J. Proctor Knott by the recent Democratic State Convention, we publish the statement of Hon. Isaac Caldwell, the chairman of the convention, in whose ability, honor and veracity every county without the opportunity for correction would have been a monstrous fraud which might have resulted in the defeat of the party at the polls.

This principle was so plain that Nelson, the chief friend of Jones, moved the unanimous nomination of Knott,-aml be and Bryan, who just Jones in nomination, were appointed on the committee to inform Knott of his unanimous nomination, which duty they performed—and Jones himself came out in a decided streech recognizing the nomination of Knott and refusing emphatically to he considered as in the slightest degree disaffected as to the nomination.

This ought to satisfy every fair man as to the regularity and validity of the nomination of Knott. And all who are true to the Democratic party, whether would be leaders or privates, will do what they can to secure his election, instead of ministering to the disaffection attempted to be produced by Republicans, and unrereliable Democrats. On the contrary what a howl of indignation would have been justly raised if Jones had been pronounced nominated by five delegates from Owen county violating instructions in favor of Knott-when the delegation from that county were trying to correct

The nomination of Knott has been officially promulgated, and all true Democrats are carnestly and enthusiastically

supporting him. To the People of Kentucky: I recently presided as Chairman of a Democratic State Convention in Louisville, Ky. This was a novel position for me and placed me in a relation to the Democratic party in the State which demands of me that the party which trusted no shall not suffer in credit or charneter in the State or country by any charges or heshuntlons of unfall practices. In so much of the action of the Convention, as concerns the part I have in it. Reterring to those charges as made in the cheles or defended polyitlelans and disappointed newspapers, I state

First-The first delay of the summing up of the final ballot between Col. Jones and Knatt for Governar was made by the friends of Col. James, who insisted on the right of a Mr. Kendall to cast three votes for the county of Ellott in favor of Col. Jones. This vote was challenged on the floor by the friends of Mr. Knott, and Mr. Kendall drew his creden-Mr. Knott, and Mr. Kendall drew his creden-tials from his pocket, which was conclusive proof that the credentials had not been be-fore the Committee on Credentials, and it was conceded by both parties that Mr. Kendail had not answered for Efflott county on the day pree-ding. The best I could do for Col. Jones on these facts was to refer the credentials to the committee, who reported the favor of Mr. Kendull's right to cast the vote, and I so ruled it, and the vote was cast for Colonel

Second—Pendin he contest over the Eill-ott county vote, Mr. Revell, chn' man of the Owen county delegation, was camoring and be forced to serve,

persisting in his right to change the vote of Owen county. I did not then know what change he wished to make, but told him repeatedly that his application could not be heard until the Ellicit county vate was settied, for the idedn reason: that under the rule adopted on the first day of the convention, the ballof of any county could not be changed until the call of the countles was completed, nor after the result at 10e billot was announced. I considered the Elliat county case peressary to complete the entl, and could not there ore hearms offer to change a ballot until that case was disposed of Mr. Revell was intensely auxious that als demand should not be ent off by the appropriate of the resuit of the ballot, and left his place and came immediately under the confirman's stand to args this demand. I told this he should be fairly dealt by, and when the call was completed by deciding the Eillott county case, he significantly be heard.

Toled-When the Eillett county case had been disposed of and the vole cost for Col. Junes, I gave the floor to Mr. Revell, on his cluding of right to change the vote of Owen county. This created such a flery contest as the change of five votes from Jones to flye votes for Kilott or at very close find would nuturally cause. A long time was consumed with from two to a dozen men speaking at the same time, the details of which are rot worth repeating, when finally it was ananoneed by the challman of the Owen delegation and the beautiful by several of the guilan and the mer echoed by several of the delegates non-that county that the opposition had yielded, and by consent the thirteen votes were to be cost salid for Knott, in obe-dience to the instructions of dience to the instructions of the primary meaning in Owen county. I inquired: "Is that agreed?" and several voices addyes, and Mr. Petlit, one of the Secretaries, announced, in a loud, clear valce, the vote of Owen countries. ty is changed from eight for Knott and five for Jones to thirteen for Knott, and no protest or denlni was heird on the stand, and my friends standing and sitting near me congrat-ninted are on e-caping the responsibility of deciding a difficult question, and I appreciated the congratulations, for I did not feel very come as to have a decide, and I was considering whether I would decide at all or refer the matter two voices the convention. But constess to a very decided conviction that Knott was fairly entitled to the vote.

Fourth—Whilst the Owen county matter was yet under consideration there were clam-

orons demands from some of the illstricts in Louisville and from elsewhere to change votes, which I refused to near nutil the Owen county question was disposed of. Then began withdrew bin trom the confest, and Mr. Knott's romination was, on motion, made unanimous by acclamation, and Mr. Bryan, and Mr. Nelson, Col. Jones' leaders, headed the committee that escorted Mr. Knott to the platform to respond to the calls for him, as

plattern to respond to the calls for him, as the usage is.

Fifth—There was never a time when I had the right to order the result of the hallot to be announced. I made no mistake and caused no delay on that point. The hallot was never completed or announced, but pending the ballot, Colonel Jones was withdrawn by his leaders, and Mr. Knott was nonlinated, not by belief, but by wellannion, in the absence hy ballot, but by acclamation, in the absence of a competitor, and without a dissenting vote. I did not decide or rule on the Owen county vote, and in no way contributed to the nomination of Mr. Knott or the defeat of Cot. Jones ISAAC CALDWELL. LOUISVILLE, May 18.

LOUISVILLE, May 18.-Hon. Isaac Caldwell: Referring to the charges of unfairness practiced in the Demicratic Convention just adjonrned in this city, and nujustly made against you we teel that a statement from us, as Secretaries of that convention there on one will have confidence, and also that of the secretaries of the convention. In view of these statements every one will concur in the belief that Knott was fairly nominated—and that to prononnee Jones

when he presented a paper clalining it as authority for his action. Mr. Jones' friends pressed the right of the delegate to cast the vote, in the free of the fact that the county had nominated under the violation of in- not theretolore been cast by him, As chairunn, you directed the county to be massed structions by five votes from Owen and referred the paper which had been sent to the Secretary to the Committee on Creden-tinis. Col. Walf, the chidrman of the committee, took e auge of the paper and called the committee lozether to consider it, when the call proceeded. After the call had been made, and pending the report of the Funnittee on Creden has, Mr. Revell, the chalranant the Casara and the Casara of the Owen county de egaffan, had repeatedly demanded to be heard, cla ming the right to clinage the vote at the county from eight for Knott and five for Janes to thirteen for for Knott and five for James to thirteen for Knott. As chairman you told him that he should be heard when the question from Elliatt had been settled. Whilst the Committee on Credentials were ont, Mr. Reveil came forward immediately in front of the chair, accompanied by several of his delegates, demanding to make the change, and other Owen delegales made airnest opposition thereto. In valu you tried to preserve order. Thus pro-ceeding, Col. Wall reported from his commit-tee the right of Edilott county to representatation by the proxy, when you directed the three votes of Eillott to be recorded for Mr. Jones. On the demand of Mr. Revell, the proceedings of the Owen county convention were read, which showed that the county had instructed its delegates to vote first for Gen. Buckner and secondly, "soildly for J. Proctor Knatt," The concention in the Owen delegation at this time was flerce, and resulted in leave being granted for the withdrawal of the delegation for five minutes consultaof the delegation for five minutes consultation. Upon their return it was announced
by the chairman that the contest was settled
and the vote was to be cast in accordance

Turned Out of a Negro Congregation on a Charge of Using Love Pow-

ders. SAVANNAH, GA., May 22.-A case illusstrating the tenacity with which colored people eling to superstition has just developed in Tatinall county. Henry Edwards, a young colored man of that county, who is well thought of by his white neighbors, became enamored of a colored girl across the line in Liberty county. The girl came to this city on a visit, and while here received a letter from her Tattnall lover, full of devoted sentiments. To make his letter more SPLENDOR. acceptable the swain had perfumed it As soon as the odor reached the nostrils of the girl she conceived the idea that it was love powder. She returned homet narrated the event to her father, who grew indignant and brought the matter up in church. The case was on trial Saturday, and the young man was required to acknowledge his sin and repentance, when his church membership would by restored to him. This he refused to do, stating that he knew nothing about witchcraft, whereupon the girl's father pulled off his coat and was about to chastise the offender when he was restrained. He has \$100 with which he has retained a lawyer to prosecute the ease in the courts.

RAUM'S SUCCESSOR.

Walter Evans, of Louisville, Commissioner of Internal Revenue.

Louisville, Ky., May 22 .- The appointment of Walter Evans, of Kentucky, to the vacancy in the office of Commissioner of Internal Revenue, caused by the resignation of Green B. Raum, gives great satisfaction to the Republicans of Kentucky. He has figured prominently in Kentucky politics, and led the forlorn hope, as candidate for Governor against Blackburn in 1879. He is recognized as an upright and efficient man. The Democrats here say that it is Mr. Arthur's first move toward a nomination for President, as this appointment seemes the Kentucky delegation in the convention.
